Licences — Karnataka Chemical and Pharmaceutical Works Ltd., Udipa — Bonde Warehouse and Pharmaceutical Laby — Manufacture of Medl Toilet and other preprns — Grant

Not to be filled in in the case of permanent records.

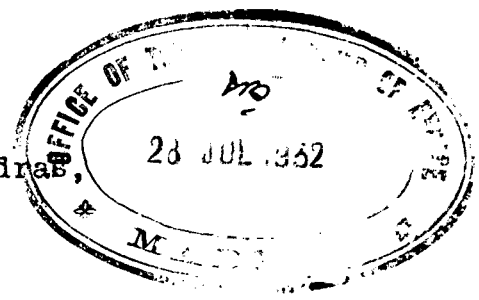
Karnataka Chemical & Pharmaceutical Works, Ltd.

Udipi, (S. Kanara.)

No. E.1/32. ADMN. 5987

26th July 1932.

To. The Commissioner of
The Excise Department of
The Government of Madras,
Madras.



Sir,

We have very recently set out on an enterprise which is new to thi Province and have incorporated a limited Concern of the above name. We now wish to open a Bonded Warehouse for the preparation of Alcoholic Medicines such as Tinctures, Liquid Extracts etc of the British and other Pharmacoc Hence we wish to know the different rules and regulations to be observed in connection with this. Therefore, we should like to be enlightened on this point and request you to be good enough to supply us with the necessary in- mation and oblige.

In other Provinces such as Bengal, Bombay and Punjab their Gover ments have, in order to encourage this industry in their Provinces, given t people every possible facilities and have granted certain concessions such a the reduction of duty on the Alcohol consumed by them in the preparation of medicines and toilets. Will you kindly let us know what all concessions will be, given to us with regard to this.

Will you kindly let us know where we have to pay the Duty if we - are to import our Alcohol from other Provinces- whether here in this Provinc or in the Province whence we import the Alcohol, and when -whether while im -orting it or while selling our preparations ? Have we to pay any Provincial tax while importing the Alcohol from other Province ?

Will you kindly emlighten us as to the Officer from whom we have to get our License for the opening of a Bonded Warehouse ? To whom have we t send our B.P.Products for examination in order to declare their strengths -

and what all rules and regulations are to be observed with regard to this also?

This being a purely Indian Concern we wish to be given every possible facilities and patronise by the Government board more so as we are the pioneers in this Industry in this Province. And it is the duty of the Government to help us in this enterprise.

Hope to receive the favour of an early reply for which act of kindness we do thank you in anticipation.

We have the honour to be

Sir,

Your most Obedient Servants,

For Karnataka Chemical &
Pharmaceutical Works, Ltd., Udipi.

Karnataka Chemical & Pharmaceutical Works, Ltd.

Udipi, (S. Kanara.)

No. E.2/32. 16th September 1932

To. Edward Brito Esquire,
Secretary to the Commissioner of Excise
Triplicane, Madras.

Ref: Your Letter C.R.No 6906/Abk/32 dated 13-9-32.

Dear Sir,

We wish to open shortly a Bonded Warehouse for the manufactur of Spiritual Medicinal and Toilet preparations. Hence we want to construct building for our Pharmaceutical Laboratory. In the Revenue Notifications pub-lished in the Fort St George Gazette it is given that " buildings shall be constructed in the manner laid down in paragraph 115 Chapter V of Distiller Manual". So we ordered for a copy of the Distillery Manual with several book-sellers. From the replies we received from the various Book-sellers and the Superintendent, Government Press, Madras we find that it is out of Stock with them and also not available with any booksellers. Further, we were advised by Messrs Higginbothams to write to you direct and get a copy of the same.- So we wrote to you our Letter No. G.47/32 and received your above Letter in reply stating that the same is not for sale.

As we find that our work has greatly sufferred on account of this and as there is no other alternative left for us, we beg to approach you for a solution in the matter. We shall be highly obliged if you will kindly help us out of this difficulty. We request you to be good enough to kindly advise us how we have to construct our building in order to get the License for our Bonded Warehouse without any difficulty and objections on the account of the building. Will you, therefore, kindly let us know the restric-tions to be observed in the construction of the building, for the purposes of Pharmaceutical Laboratory. Will you also let us know the rules in respect

6

Karnataka Chemical & Pharmaceutical Works Limited, Udipi.

of the building which are being followed in passing the building and granting Licenses for Bonded Warehouses. This will greatly help us to get our building construted in the prescribed form and shape required by the rules of the Excise Department.

Hope you will solve this difficulty by sending us your advise at an early date. Further, we wish to be excused for the troubles we have been giving you in the matter, owing to our failure to get a copy of the Distillery Manual anywhere. We hope to receive the favour of an early reply and expect to tide over the present difficulty with your assistance, for which act of kindness we shall always be very greatful to you ever afterwards.

Yours faithfully,

for Karnataka Chemical &
Pharmaceutical Works, Ltd., Udipi.

Manufacture in bond — Medicinal and Toilet preps — Certain particulars Furnished

To

THE

Memo

The petnrs are informed that the manufacture in bond of only medicinal preps containing alcohol will be allowed in a licensed Pharmaceutical Laby. The manufacture in bond of culinary, aerated water or other flavouring essences, extracts colourings, perfumes and toilet preps will be allowed only in a separate bonded warehouse licensed for the purpose. Medicinal and the toilet preps containing alcohol cannot therefore be manufactured in bond under me and the same licence. The buildings to be

used as Pharmaceutical laboratories
& bonded warehouses should conform
to the following Specifications A.S. 91-92 C)

1) They must be constructed throughout
either of brick or of stone. Roofs may be
tiled either with Mangalore or Country
tiles or may be covered with galvanized
iron. All windows must be fitted with
iron bars not more than 4 inches apart
from centre to centre. Those in rooms used for
sorting must be covered internally with
~~galvan~~ galvanized wire netting of a
Square mesh not exceeding $\frac{1}{4}$ inch
firmly secured to the frame work. Doors
of on the ground floor must be provided
with inside wooden shutters which
can be secured with an inside bar.
Skylights must be Smulash barred
and netted.

(2) Doors must be so hung that
tampering with the hinges from
the outside is impossible. When
external hinges are employed they
must be secured to both door and
frame by bolts and nuts with the
nuts inside. But if screws are
used they must be of sufficient
length to allow at least $\frac{1}{2}$ inch
of each screw to be bent over

on the inside of the door and fram

(3) No honey comb work will be allowed in any external wall unless at a height of at least 1.5 ft abo ground level

4) All openings in external walls fo the exit of waste water must be provided with iron gratings secur built into the wall

(5) To give free egress in case of fire o accident emergency doors must be provided. Such doors must open outwards and must be secured on the inside a drop bar. the bar being

(6) No thatched building may be erected in the compound without t previous sanction of the C.

/- The attention of the pchrs is invited to secn B. (1) of the C' notifns published on pages 1289-129 of Part II of the Fort St George Gazette d 26th June 1923 and on pages 964-97 of Part II of the Fort St George Gazette 12th July 1932 and they are advised before beginning the construction of the buildings, to submit accurate plans for approval, & furnishing at the same time the particulars

prescribed in the above Secn of the Notifns. The question of granting necessary licences to the petnrs will then be considered by the C

Udipi, (S. Kanara.)

OFFICE OF THE COMMISSIONER OF EXCISE
11 OCT 1932

No. E.3/32. 28th October 1932.

7604

To. The Commissioner of Excise,

Triplicane, Madras.

Sir,

We beg to state that we have recently incorporated a new Company of the above name and have already commenced work in our Ayurvedic Depart-ment and wish to open shortly the Department for the manufacture of B.P. - Products. For the present, we shall have to prepare only Non-Alcoholic pre-parations till our building for the Bonded Warehouse is ready and until - we are granted the necessary License for the same.

For the Bonded warehouse we have to construct a new building - and therefore, we beg to submit the enclosed plan of the same for your ap-proval. As we want to manufacture both the medicinal as well as the toilet preparations in our Laboratory and as we find from the letter from your Of-fice dated 24th September 1932 that we have to get separate licenses for each of these we propose to construct the building as shown in the accompanying plan so as to enable one Officer to supervise and control the work in both the Laboratories. The plan has been specially prepared in consultation - with one who had been working in a Bonded warehouse of the Bombay Presiden-cy, for the last twenty years or so. We therefore, hope that it will get - your approval without any difficulty. If you have got any suggestions to - make any changes in the building we are ready to carry out those changes.-

The plan enclosed herewith is 25 feet wide and 64½ feet long. - It is divided into 6 compartments. The outer walls on the south, east, and - north are each one foot thick. The wall on the western side is only ½ foot thick. This is because the building is continued onthis side for the Non-Alcoholic Preparations Department. The main entrance is only one and is -

marked as D1. It leads to the Phrmaceutical Laboratory L1. This Pharma-ceutical Laboratory L1 is separated from the Storage of Alcohol S1 by a wall X2 which is ½ ft thick and which has a door D5. It is further sepa-rated from the Warehouse H1 by a wall X2 ½ ft thick with a door D6 and a window W 19. Again on the eastern side this laboratory L1 is separated from the Laboratory for the Toilet Department L 2 by a wooden partition - X 3 having a door D2. This parttion will be a wooden frame with iron - bars. This is intended to enable the officer in Charge of the Laborato-ries to see everything going on in the Toilet department while sitting in - the Pharmaceutical Department. This Laboratory is again separated - from the Alcohol Storage S 2 by a wall X 4, ½ ft Thick with a door D 3. - It is also separated from the Warehouse H 2 by a wall X 4 , ½ ft thick with a door D 4 and a window W 18. Thus you will see that an Officer - sitting in the Pharmaceutical Laboratory L 1 will be able to supervise - and control all the work in both the laboratories. To the East of this building there is the Ayurvedic Department in a separate building. To - the south of this Bonded warehouse there is a yard. To the north there is is a mud wall the extremity of the Compound. The building will be 12 ft high between the ground floor and the ceiling and 6 feet above this. - This in short is the description of the plan of the building which we - propose to ~~build~~ construct. We therefore, beg of you to go through the same and after making any changes if necessary to approve it and send - us a favourable reply at an early date.

We have further to bring it to your notice that although the Government of Madras had published the notification in the Fort St George Gazette as early as 1923 that the Concessional rate of Rs 5/- - will be allowed on all Pharmaceutical preparations manfactured in a - Bonded warehouse , nobody in this Presidency has come forward with any

enterprise of the above kind. We have now come forward with the above - enterprise and hence we have to request you to give us every encouragement by giving us all the possible facilities for the successful working of the Company and support this indegenous industry which is perhaps the only one of its kind in this Presidency You will know that - in good many respects we are placed in a very disadvantageous position in comparison with the people of other provinces. Firstly in this province there is only one distillery whereas in other provinces there are good many distilleries and Alcohol can be had at very competitive rates Here the rate is very high; and we are not allowed to import it from other provinces . The Alcohol available in this Province is inferior to that available in Bombay and Calcutta. The Government of Bombay itself is - manufacturing good Alcohol and supplying it to the public at a lower - rate. Moreover the factory in this Province is situated in a corner and the conveyance charges will be very high. We can get Alcohol from Bombay at a much lower rate including freight. Furthere the restrictions imposed on in this Province are too many and too severe. The wastage - allowed in preparation of medicines ia too small the actual wastage being very high. By this the manufacturers are losing a good deal and cannot compete with the manufacturers of other provinces and hence cannot find a market for their preparations in other provinces. These are perhaps - some of the reasons for the people not coming forward for any such -- work. We hope that the Government may by relaxing some of their rules - give more encouragement to the Industrialists for such enterprises. A - reference to the working of the details in other Provinces will convince the Authorities of these things. The Government has already followed - the Other Governments in allowing a concessional rate of Rs 5/- per - gallon on all Pharmaceutical and toilet preparations.Their object would

have been better fulfilled if they should allow us to import Alcohol from other Provinces. They will get their duty of Rs 5/- per gallon Proof - If this is not allowed and if the only Distillery in this Province is not willing to give us any concessions as regards the rate of Alcohol - how are we to find a market for our goods in any other Province. We hope to get some concessions at least after some time.

We now want to open bonded warehouses both for the medi--cinal and toilet preparations. And if we are to locate the two in two different places we shall have to pay the salaries of two Inspectors who will have to be employed for the supervision of the two bonded warehou--ses. This will be a great hardship for us in addition to the several - others already explained in the last paragraph. So we propose to cons- truct the building as shown in the accompanying plan so as to enable one Officer to supervise and control both the departments. And we request - you to kindly approve our plan and grant us a special concession if ne- - cessary to hold two bonded warehouses under the supervision of one -- Officer. By this the Government will be encouraging this industry in - this Province without any loss to them. We hope you will consider all - these aspects while giving us reply and grant us the necessary permissi - on as a special concession to us if necessary.

Meanwhile we want licenses to purchase and keep in stock the following articles. 1. One maund of Cannabis Indica (Ganja) 2. 50 gallons of Methylated Spirits. 3. 4 pounds of Opium. 4. 1 pound of - Morphia or its salts. We shall require all these for our Medicinal use - and not for sale. Please therefore let us know to whom we have to apply for the necessary licenses and what all particulars we have to supply - them, and what amount of fees we have to pay in each case. Please send also any more particulars or details which you may think necessary for

our Company to know. On hearing from you we shall do the needful in the - matter. As it is very difficult to get old copies of Fort St George Gazette any reference to it will not help us in any way. Please therefore, ~~please~~ - give us all the information and oblige.

Ours being almost the only company of its kind we - have to request you to help us in every way in the successful working of the Company. We hope to receive the favour of an early reply in the affirmative as regards the combination of the Two Bonded warehouses under one - Officer.

I have the Honour to be

Sir,

Your most obedient Servant.

To. The Commissioner of Excise,
Triplicane, Madras.

BKARI

Honoured Sir,

Early in the month of October we had the opportunity of bringing to your kind notice that we intend to open a Bonded Warehouse - for the Manufacture of Medicinal and Toilet Preparations containing --- Alcohol. We had even applied on the 8th of October for two Licences - one for 600 gallons of 60 O.P. Spirit for our Pharmaceutical Department and the other for 250 gallons of 60 O.P. Spirit for our Toilet Depart--ment. We had also enclosed a rough sketch of the building which we had proposed to construct for the purpose.

11-16 (I)

To the above application we had received your reply - C.R.No 7604 Abk dated 14th October that our Petition ought to have been attached with a Court Fee Label of the value of Re 1-8-0 and that fur--ther our Petition does not conform to Section B(1) of the Rules pres--cribed for the Supervision and control of Pharmaceutical Laboratory. - But as our vessels were not ready we could not give any particulars of the same earlier. Hence the delay in sending the application.

17-18 (I)

p-6 (A)

Now anyhow we are sending herewith two separate Appli--cations for the two different Licences and have attached to each of -- them Court Fee Labels of the value of Re 1-8-0 as required by the Rules prescribed for the purpose.

(M)

As required by the prescribed Rules we have herewith - enclosed the plan in Duplicate, drawn to scale on tracing cloth showing the - plan and elevation of the premises and the position of the Spirit Store,

(Laboratory.

Laboratory, Factory, and Warehouse and the exact position and di--mensions of all permanent vessels for the storage of Alcohol for -medicinal preparations and of all compounding tables, almirahs, -safes, sinks etc., and all the important details connected there--with.

As is seen from the accompanying plan the building will consist of two Departments. The eastern portion will be allot--ed for the Toilet Department and the western portion will be al--lotted for the Pharmaceutical Department. Each Department will -further consist of 3 compartments. One of these will be set apart as the Spirit Store, another for the Laboratory or Factory and the third as the Warehouse.

The Spirit Store of the Toilet Department will be 8'x7½' and will have in it a vessel of the capacity of 200 gallons with a cock at the bottom and a manhole at the top with locking -arrangements, for the both. To the north of this will situate the --Warehouse 14'-3'' x 8' provided with racks to keep the finished Preparations containing Alcohol on which Duty has not been paid. -Towards the west of both these compartments will situate the Fac--tory for the Toilet Department 12' - 6'' x 22' - 6''. We will -provide in it two stills of the capacity of 5 gallons, one Extrac--tion Apparatus of the capacity of 2 gallons, one Rapid Strirrer -of 3 gallons. We shall also provide with 6 Macerators of the capa--city of 3 gallons each and 6 Storage Tanks of the capacity of -5 gallons each. In addition to these permanent vessels there will-be a compounding Table 8' x 3' with a rack on it, aPacking Table , 7'x 2½' an Office Table 3' x 2' with the necessary chairs, stools -

(and bench

3

and benches. There will be an outlet 01 for the water from this room - to the Laboratory of the Pharmaceutical Department whenever this room - is washed and cleaned.This in brief is the description of the Toilet - Department with all the necessary details required by the Rules. All the windows will be fitted with iron bars at a distance of 4'' from - center to center and will be covered internally with galvanised wire - netting of a square mesh of 1/4 '' firmly secured to the framework. - Further they will be provided with inside wooden shutters which can be secured with inside bar. The ventilators also will be fitted with a - similar wire netting.

To the west of this Toilet Department will situ--ate the Pharmaceutical Department. It will consist of three compart--ments just like the Toilet Department. The Spirit Store of this Depart--ment will be 8' x 10' with two vessels of the capacity of 300 gallons each fitted with cocks at the bottom and manholes at the top just like that in the Toilet Department with locking arrangements.To the east of it will situate the Warehouse 8' x 18' furnished with racks for keeping the finished Preparations containing Alcohol on which Duty has not -- been paid. On the north of both these compartments will situate the - Laboratory of the Pharmaceutical Department, a room 22'- 6'' x 35'-0'' In this Laboratory we shall provide an Office for the Excise Sub- Ins--pector 8'x 10'. He will be provided with an Almirah 3'x5'x14'' and a Table 5'x 3' with a chair. From here he will be able to Supervise and - Control both the Departments. For this,we shall fix only an iron barred frame for the partition between the Factory of the Toilet Department - and the Laboratory of the Pharmaceutical Department sothat the Officer sitting in his Office can see all that is being done in both the Depart

(-ment

-ments. To the left of this Office will situate the Company's Office -- 4' x 7'. This Office will have one Table 3' x 2', A packing Table 3'x10' and an Almirah 3'x5'x 14'' will also be provided in this Laboratory.

The permanent vessels in the Laboratory will be 12 Tinct--ure Storage Tanks of the capacity of 25 gallons each, 3 Macerators of -14 gallons each, 3 Macerators of 10 gallons each, 3 Macerators of 6½ gal--lons each, 6 Percolators of 22½ gallons each. 1 Percolator of 12 gallons 1 Percolator of 7½ gallons, 1 Percolator of 5½ gallons, 6 Receivers of -10 gallons each and 3 Receivers of 6 gallons, and Four Stills of the ca--pacity of 10 gallons each, One 20 ton Tincture Press.

There will also be a sink 2½'x 2½' with a pipe that will -lead to and discharge into closed drains on the outside. The pipe will be 4'' in diameter and will be provided with iron gratings securely built -into the wall.All the windows will be fitted with iron bars at a distance of 4'' from centre to centre and will be covered internally with galva--nised wire netting of a square mesh of ¼ '' firmly secured to the frame--work. Further, they will be provided with inside wooden shutters which -can be secured with an inside bar. The ventilators will also be likewise fitted with iron bars and wire netting.

As will be clear from the plan there will be only -one Main Entrance for the Whole building, and only one door for each of -the compartments in them.Further as required by the Rules we shall pro-vide with an Emergency Door opening outwards as an Exit in case of Fire or any accident and it will be secured as per Rules prescribed for the -purpose on the inside by a drop bar the ends of the bar being fastened -only with a twine the knotted ends of which are to be sealed with wax -impressed with the private seal of the Officer in charge.

The Whole building except the Spirit Store and the -

(Warehouse

5/26

Warehouse of the Pharmaceutical Department will have an upper Storey - over it and the Spirit Store and the Warehouse of the Pharmaceutical - Department will have a tiled roof having Mangalore Tiles provided with ceiling on the inside so as to ensure the safety of the things inside.

We have further to inform your Honour that Assist- ant Commissioner of Excise Cannanore while on his Tour at Udipi had - been good enough to visit our Locality and had inspected our Prmises on the 30th of November and had noted down all our requirements and had even - promised every help for us and had wished us success in our undertaking which is the first of its kind in the Whole of the Presidency of Madras.

The work of foundation of our Building is already over and all other materials such as stones, wood and other things necessary for the building have already been stored and we are awaiting your orders - for the future work, which we shall have to begin only after receiving - the order approving the plan of the building. We have to request your - Honour to be good enough to pass orders on these Petitions at an early - date so as to enable us to commence our work of the building immediately and finish it by the end of January, 1933. We hope to open our Bonded - Warehouse in the month of February provided we get the order early. Fur- -ther we beg to bring to your Kind notice that we shall have to lose a - good deal if we cannot open the bonded warehouse early in the month of - February at latest as we shall have to pay the salaries of our Staff for no work. We beg to inform that we have already employed one B.Sc of the Bombay University and one M.Sc of the Bombay University who is also a - Ph. D. of the London University on our staff. They will not be able to - work properly until we open our Bonded Warehouse, as till then they will have to prepare only non-Alcoholic preparations.

We have further to submit that we have taken all - (the

the possible pains to see that all the Rules and Regulations connected with the Supervision and Control of Medicinal as well as Toilet Prepa-rations in Bond are complied with as also that the building is in - conformity with the Paragraph 115 Chapter V of the Distillery Manual.

In conclusion we pray that early orders may be - passed on these Applications granting the Licences in the name of the - Company which is a Registered one. If the same is not possible the - same may be granted in the name of its Managing Director Mr. U. Venka-taraya Annappa Baliga, Landholder, Udipi, South Kanara. For this Act of kindness we shall ever be grateful to your Honour. Meanwhile, we shall be awaiting the orders which we hope to get at an early date.

Enclosures: 8 only.

1. Two Applications for Licences.
2. Two Memoranda connected with the above.
3. Two Plans on the tracing cloth.
4. One Calendar for the Office of the Commissioner of Excise.
5. One Calendar to the Excise Commissioner.

Ref: Our Application No E.12/32 dated 24th December 1932 for a Li-cence of Alcohol for our Pharmaceutical Department and the - Application No E.13/32 dated 24th December 1932 for another - Licence for our Toilet Department.

Honoured Sir,

On the 24th of December 1932 we had applied for two Li-cences for Alcohol,. one for our Pharmaceutical Department and the --- other for our Toilet Department, enclosing therewith the plan in dupli-cate drawn to scale on tracing cloth as required by the Rules prescribed for the purpose. Now in connection with the same we beg to submit that - on the 25th of February 1933 the Mahamagham All-India Swadeshi Exhibi-tion will be opened in Kumbakonam and that we wish to exhibit there -- our products for introducing them to the important markets of Southern - India. We have to submit also that ours is the first Enterprise of its - kind in the whole of Madras Presidency and Southern India and that we - have to depend mainly on the markets of Southern India for our products and as such for our success also and that we have been afforded this - golden opportunity for advertising and bringing into prominence our pro-ducts by participating in the said Exhibition which is to be held in - the very near future. Further we have to submit that our success depends mainly on the Alcoholic preparations which forms the major part of the - the 1932 British Pharmacopoeia and which cannot be prepared on a smaller scale and without a Bonded Warehouse. In the interests of the Company - it is our endeavour to see that we do not miss this unique opportunity -

52-48

afforded to us by chance in so short a time and to try our level - best to reap the benefit of such an All-India Organisation which is to come omly once in twelve years.

So, we nave to request your Honour to kindly grant us the Licences at an early date and thus enable us to get the Alcoholic Supply early so as to prepare our Alcoholic Products in time to take to Kumbakonam for the Exhibition. We shall be highly obliged ir your Honour can arrange to issue the Licence at an early date for - which act of kindness we shall be ever very grate-ful to your Honour Meanwhile hoping to be excused for the troubles and thanking your - Honour in anticipation and awaiting the Licence ,

We have the honour to be

Honoured Sir,

Your most Obediant Servants,

For Karnataka Chemical & Pharmaceutical Works, Ltd., Udipi.

OFFICE OF THE COMMISSIONER OF EXCISE
3 - FEB 1933
MADRAS

5th February 1933

To. The Commissioner of Excise,
Triplicane, Madras.

Ref : C.R.No .13/Abk /33 dated 31st January 1933.

Honoured Sir,

We are in receipt of the above letter and thank your - Honour for the same. Afetr perusal of the same as we wished to place -- before your honour certain representation about our Company for your Ho--nour's kind consideration we thought of sending our Managing Director - represent t he Company in person. But since he is not well he may be a - little late so we think it better to submit our representation by means - of this letter. If possible he will go over there in two or three days. and explain everything in person and satisfy your Honour asregards the - points we shall be putting dowm here.

We have to say that your honour's order that we must bear the cost of supervision ie pay- leave- and pensionary contribution of one First Grade Sub-Inspector and Two peons, is a great hardship fo us and a very heavy tax on us especially at this stage when the Company is in its very infancy and when the whole world depression is not yet - over.

With regard to this we beg to submit the following re presentation for Your Honour's kind consideration and favourable orders.

1. The people of this Presidency in general and we in particular ar placed in a very disadvantageous position in comparison to the people of other Provinces.

2. Most of the raw materials that are required for the preparation o B.P.Tinctures and other products are not available in this Presidency and

have to be imported from Bombay and Calcutta for which we shall have to pay a high freight.

3. The place from which we have to get our Alcohol is very far from our place and to add to it the rate of that Alcohol is also high. The Alcohol that is necessary for the manufacture of B.P.Tinctures and other things is available only in one place in this Presidency and that too at a very high rate. We have been forbidden from importing Alcohol from Bombay or other places where the Government itself has got Factories and will supply the same at a lower rate. According to this ristriction we have no other alternative than to get our supplies from Messrs Parry and Co. Nellikuppam which is at a very long distance from our Place, and that too at a higher rate.

4. Further our place of business is situated at remote corner far away from the great market places of this presidency such as Madras, Madura, Trichinoply and other big cities. But as all the persons interested in this Company are from this place it is not possible to shift the place of business from here to anywhere else.

5. To add to these disadvantages the rules and regulations prescribed for the purpose of of the manufacture of Spirituous Preparations in this Presidency are very stiff and rigid than the corresponding rules and regulations which have undergone a good deal of variations after they had been framed. But since there are no other Companies of this kind in this Presidency there have been no opportunities of changing the rules.

6. The aim and object of the Government od Madras in granting concessional rate of duty for the Alcohol used for the manufacture of Spirituous Pharmaceutical preparations were to encourage patronise and support the indigenous industries of this presidency.

7. The main objects with which the officers in charge of Phar-
-maceutical Laboratories are appointed to supervise and control Spirit
Transactions are clear from Sec D of the Rules prescribed for the pur-
-pose.

a. They are to see that proper use of the Alcohol is made ie that it is used only in the manufacture of Medicinal Preparations and that all the finished products on which -- duty has not been collected are kept in safe custody.

b. That accounts in the forms prescribed are kept both by - the officer in charge as well as the Licensee.

c. That correct collection of duty at the prescribed rate - is collected before the medicinal preparations containing Alcohol are removed from the premises.

d. That he is required to ensure that Alcohol used for the - certain preparation is added to the materials which go - to make the preparation and that no portion of such Alco- - hol is diverted to other purposes.

For carrying out all these duties no special qualification is
nd hemce a Sub-Inspector of any grade, even of the last grade
ently supervise and control the same. So to ask us to bear -
the whole cost of supervision ie the pay-leave and pension contribution
of one First grade Sub-I... ...or and two peons is a great hardship for
us and that at this time of World-wide depression at which it has been our lot to start our Company.

8. Moreover in Sec.I (General) it is given that the Licensee of a Pharmaceutical Laboratory shall pay the cost of the establishment required to supervise the work either in full or in part as may be ordered by the Commissioner. Thus it is clear that it is left to the -

discretion of the Commissioner to charge full or part of the cost of Supervision on the Company and to allow any concessions with regard to these by reducing the cost of supervision and collecting only a part of the Establishment cost from the Licensee.

10 Moreover the Government will not lose anyhthing by this + as on the other they will get a good deal of Duty on the spirituous preparations manufactured in their Presidency which depends on the quantity of the Alcohol consumed by the Company.

11. By giving better facilities the Government will gain a good deal. As we are enabled to compete with the other Companies of other Provinces and the companies of this province will thrive and the business will increase steadily and the duty collected by the Government will also grow staedily.

12. If our Company thrives it will also encourage others in this presidency to start similar Companies and more Companies of this Knd will come into existence and the Government will gain a good deal by allowing us certain concessions and facilities.

13. Thus in conclusion we beg to submit that Your Honour may be pleased to take all these aspects into consideration and pass orders considering the present world Depression during which we have to organise our Company.

Further the Government will also get a large quantity of ity and also in a way solve the question of unemployment of these parts id as the Exhibition at Kumbakonam is fast approaching we shall be very ich obliged if your Honour can arrange to give the Licence immediately. oping to receive a favourable reply to this,

We beg to remain,

Spiritious preps — Manufacture in Goa — Grant of licences

To

THE

Refer

The C. wonders that an estt consisting of one first grade Sub Insp and two peons is necessary for the efficient supervision of the proposed pharmaceutical laboratory and bonded warehouse. The petrs cannot have it both ways, if a low concessional rate of duty on Spirit is given the grantee must pay the Staff required to ensure that there is no misuse of the privilege. The petrs fail to note that the concessional rate of Rs 5/- per proof gallon proposed to be levied, as against the tariff rate of Rs 37-8-0 per proof gallon is a very great advantage. Similar Concerns in the Presy are bearing

the estt charges on this scale and the Govt does not propose to treat this Company differently.

2/ The petrs are informed that the licences cannot be issued to them immediately, even though they are willing to bear the entire cost of supervision. Necessary sanction of Govt has to be obtained in the matter and the building put up inspected and approved before the licences are granted.

3/ In this connection the petrs are informed that if the licences are granted they should deposit Rs 10000/ on account of the bonded warehouse and a like amount in respect of the pharmaceutical laboratory as securities for the due observance of the conditions of their licences in accordance with rule 26(1) of the Distly and Warehouse Rules. They have also to execute under Rule 26(2)(x) of the same rules, agreements binding themselves their heirs legal representatives and assigns to observe the conditions of their licences & hypothecating the buildings apparatus therein together with stocks of liquors &c as securities for the payment of all sums which may become due to Govt. In lieu of executing the hypothecation deed the licensees may deposit in each case Govt Promissory notes endorsed to the Collr to such value as the Commr may direct.

4/ If however the petrs desire to manufacture alcoholic preparations

preps. for production at the Coming Mahamagham. All-India Swadeshi Exhibition at Kumbakonam (T.S.) [illegible] manufacturing [illegible] with pucka duty paid Spirit and no excuse from this Debit is required for the purpose.

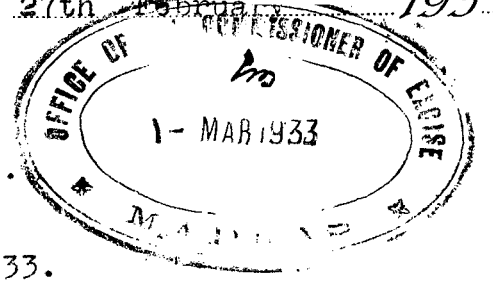
Karnataka Chemical & Pharmaceutical Works, Ltd.

Udipi, (S. Kanara.)

No.L.13/33. Camp Kumbakonam. 27th February 1933



To. The Commissioner of Excise,

ABKARI 1490

Chepauk, Triplicane Madras.

Reference:- C.R.No 13/Abk/ 33 dated 14-2-1933.

Honoured Sir,

We are in receipt of your letter referred to above and thank your Honour for the same. Therein we have noted with great disappointment --- that your honour has not been moved in the least with our appeal for conce--ssion. The concession of the rate of Five Rupees per gallon is not any spe--eial privilege allowed to us. It is allowed everywhere else (even in oth--er Foreign Countries similar concessions being in force) and without which it is not at all possible to manufacture B.P.Tinctures; ~~at all~~ for, the rate of duty at tariff rate will come to Rs 3-12-0 per gallon whereas the Tinctures are available at the rate Rs 1-10-0 even. The Petitioners therefore beg to state that they fail to see how this is a great advantage to them. Further, as regards the other concerns in this Presidency they beg to submit that - they are placed in different circumstances. They learn that they are eithe importing Tinctures in Concentrated Form and diluting here with Alcohol or manufacturing certain proprietory medicines of which the formalas are sec--cret things in their possession. None of them, as far as the Petioners' -- knowledge goes, are putting in the market any Tinctures of their own manu--facture, as it is not paying to them. Our main object is to prepare B.P. ~~Preparations~~ Tinctures and other products on a large scale and put them - in the market as the Alembic Chemical Works and Bengal Chemical and Pharmaceutical Works do. So we had been obliged and found it quite essential t bring to your Honour's kind consideration all the facts referred to in our previous letters. In our last letter we had even explained how we have been placed

32/73

in a great disadvantageous position being here in a remote corner of the - Presidency. It is the duty of the Government to encourage the Indegenous - Industries even in the remotest corner as it will improve the economic con- Ndition of the country and also to a certain extent solve the question of - unemployment especially at such a time of world depression. Sometimes the - Government finds it necssary to give certain special concessions at certain places in order to encourage that particular Industry in those parts. So, as in other cases the Commissioner of Excise has been given the discretion which he is expected to use whenever he finds it necessary to encourage the Industry.

It is the intention of the Government in passing the orders sanctioning the issue of spirits at a concessional rate of Rs 5/- per gallon to encourage - the Indegenous ~~Industry~~ Industry in this Presidency as in other Provinces -- and support the same by every possible means and in prescribing the rules - for observation have given the Excise Commissioner the powers of using his Discretionary right of - fixing the part of cost of Supervision on the Licensee.

We do not want to misuse the privilege that may be gran -ed to us and hence we pray that the Commissioner may be pleased to appoint a lower grade Sub-Inspector at least for a period of Five Years so as to - reduce the cost of Establishment, or in the event of appointing a First Grad Sub-Inspector to grant us a concession by asking us to bear only a portion of the establishment charges the Government bearing the other portion. By - doing so, your honour will be encouraging, patronising and supporting this - Industry in this Province. On the otherhand it will result in nipping this Industry in the bud, if your honour insist on putting the whole cost of su- -per-vision on us. Your Honour is well aware of the fact that there is no - other Factory in Southhern India manufacturing B.P. and B.P.C. Products and- it will be the privilege of your honour to see that one Factory at least is established during the time of your honour's regime. In accordance with the

3+25

rules and regulations prescribed for the purposes it is entirely left to discretion of the Excise Commissioner. The Petitioners therefore, pray that the Commissioner may be pleased to grant some concession at least as in -- these days of worldwide depression even the reduction of a very small amount goes a long way in the successful working of the company.

Our Managing Director has in his interview on the 22nd of this month, placed before your honour some of these aspects and we trust the Commissioner of Excise will reconsider the case and pass some favourable orders.

We agree to abide by any decision that may be passed by the Commissioner of Excise in this matter and also agree to carry out all the orders passed by the Commissioner of Excise and to follow all the instructions issued by the Excise Commissioner. Hence we pray that letter may be addressed to the Government for the necessary sanction in the matter and that necessary steps may be taken to grant us the Licence at least from the 1st of April.

Meanwhile, in order to avoid any delay in replying to any communication from the Excise Commissioner we have to inform your honour that our Managing Director is now at Kumbakonam and that any communication to the Company may be sent to him to his Kumbakonam Address till the 15th of March. His address there is No 98 stall Mahamakham All India Swadeshi Exhibition Kumbakonam. We, therefore, hope that necessary steps will be taken in the matter and arrangements will be made to grant us the Licence at -- least from the 1st of April.

We beg to remain,

---

Refer ——————————

——— Karnataka Chemical and Pharmaceutical Works Ltd, Udupi (South Kanara), have requested permission for the establishment at Udupi, of a Pharmaceutical Lab- a Bonded Warehouse for the manufacture in bond of medicinal and toilet. It is proposed to grant them nec licences under the notifications approved in G.O. Nos. Mis. 1901 Rev 26-10-1922 and Mis 1108 Rev Dt 4-6-193 The petitioners have agreed to pay the staff that may be necessary to supervise the operations in the

)8 G3

Pharmaceutical Laboratory and the Bonded Warehouse. He has therefore requested that Govt may be pleased to accord sanction for the employment of one S.Y on Rs. 40/- and two plons on Rs 12 each for a period of 12 months from 1-4-33 upto 31-3-34 (inclusive). Unlike the other similar concerns this Presidency two posts are necessary in this case as there will be two separate departments, one for the manufacture of medicines and the other for the manufacture of toilet preparations. The pay, leave, pensionary contribution will be recovered from the Company in advance every month and credited to Govt. The cost will be met by reappropriation of funds under 6. Excise C. Distilleries in the budget grant for 1933-34.

Manufacture in bond Spirituous medl and toilet preps Karnataka Chemical & Pharmaceutical Wks Ltd Udipi Grant of licences

Karnataka Chemical and Pharmaceutical Wks Ltd Udipi have applied for licences to open a pharmaceutical laboratory for the manufacture of medl preps and a bonded warehouse for the manufacture of toilet preps. The applications received from them are at ps 1 of C.F and ps 11-16 ibid. They have also furnished necessary plans in duplica

(M) In the first instance, the file may be forwarded to the A.C.D.U.O. and he may be requested to state the excise estt that may be necessary for supervision of the pharmaceutical laboratory and the bonded warehouse. The Coy may then be requested to report whether they are prepd to meet the necessary cost of supervision.

For orders

This is the first venture of the Tem in which both Spirituous medicinal preparations & Spirituous toilet preparations are attempted to be manufactured in the same premises. The promoters propose to have two depts. There are two spirit stores & two W.Hs. The only entrance to

92

the tariff dept is from the Plant dept
The arrangement described is aimed at
having to incur the minimum establish
charges for Govt's supervision. The A.C.D's
views on the plan & the connected details
& the Govt. supervising Agency necessary
may first be obtained for info pl.

PB
19/11/33

Z & C.D (C.C) The plan as submitted by the
petitioner may be accepted on the
understanding that such alterations and
additions as may be found necessary
on enquiry by me will have to be
carried out, there are likely to be of
very minor nature.
The 1st grade Lab Insp and two peons will
be required for the efficient supervision
of the proposed factory

K Mookerjee
D/C D/S 1/11

Note contd

Please see the A.C.D's report above.
He considers that one 1st grade S.I. and two peons
will be required for the efficient supervision of
the proposed factory. It may be noted that
the term 'factory' means only the part of 1 p-6 (A)
the bonded warehouse where ethereal tobacco

persons etc., are manufactured. But the parties propose to establish both a pharmaceutical factory and a bonded warehouse. Apparently, the establishment is a grade S.V and two posts are recommended viz the A.C.D is for the supervision of both the factory and the laboratory. His recommendation may be accepted and the Coy may be requested to report whether they are prepared to meet the necessary cost of supervision. For orders

In the other Pharmaceutical laboratories Messrs Spencer & Co & Martin & Co, Calcutta & Messrs Mc Dowell & Co, bonded warehouses an establishment of 1 S I & a single peon is the sanctioned strength. Now two peons have been proposed. This is apparently due to the fact that there will be two depts in the present case the Medicinal & Toilet dept & the other dept. One of the Consent for bonded the est. Charges may be obtained

24.1.33

6

By A.C.D. Two beats were proposed, as the quantity of liquor to be used is very large as compared with other places of similar nature (8.50 Bulk qrs & 1400 Proof qrs nearly). I consider it is necessary for a Govt. peon to be on the premises of Messrs Spencer & Co, Messrs Dowell & Co. & Messrs Burke & Co. have one each and a 1st grade S.I. each and necessary proof of them, I suggested a Govt. grade Sub asp. for the petitioners godown which is under our own control. The Asst. Comm. to explain. Personally I am of opinion that a permanent Sub Insp. of any grade would be sufficient in all these places. H.M.C. Duke
A.C.D. 26.1.30

Note Contd.

Please see the A.C.D's remarks above in reply to the C's query at p. 3 N. f (ante). He considers that an additional peon would be necessary in the present case for guard duty in view of the fact that the quantity of liquor to be used is very large as compared with the other places of a similar nature (8.50 bulk qrs & 1400 Proof qrs nearly). As regards the necessity for a I^st grade S.I., the A.C. personally is of opinion that a permanent S.I. of any grade would be sufficient. But inasmuch as I^st grade S.Is have been posted to all the other

Similar Concerns. The A.C.D Considers that posting a S.I of a different grade in the present case would give room to Complaints from the others. As I^st grade S.Is have been posted to Messrs Spencer & Co. Murthy & Co, and Mc Dowell & Co, each of which consist of only a Single department, there seems to be no reason why a S.I of a different grade should be posted in the present case, especially when there are two Separate departments one viz the Manufacture of toilet preps and another viz the manufacture of medl preps The estt recommended by the A.C.D viz one I^st grade S.I and 2 peons, may in the circumstances be accepted. For orders

30.1.33

It was Considered necessary that the operation should be done under the Supervision of a responsible Govt officer in the interests of revenue. As this is not assuredly an A&S job not being so important as Distl's work it should on the senior rank of the Lower grade of officers entrusted working under Rule 1 of Section I General on p 6 (V) the Cost of estt for Govt Supervision (Pay, leave & pension contribution) is recoverable from the Co & it does not touch the Govt purse. In vent this question please see the

(U) pp 31-32 - Recommendation of Drug Enquiry Committee & the C.'s remark on Govt

Of the manufacturing Co's Ltd The establishment

PB
31.1.33

Fin 31.1.33

Note Contd

Please see the Company's letter at
pp 21-25 C.F. in which they state that they are
placed under several disadvantages in

of the fact that most of the raw materials required for the manufacture of B.P tinctures and other products are not available in this Presy and that these have to be imported from Bombay and Calcutta paying a high freight. The existing restriction that alcohol required for the manufacture of the preps should be got only from a Distly in this Presy previously approved by the C., is also felt to be a hardship. It is stated that the Company is under an added disadvantage, as it is situated at a distance far away from the great market places of this Presy such as Madras, Madura & Trichinopoly. The Rules and Regulations governing the manufacture are also stated to be very stiff and rigid. In the circumstances the Company feel it a hardship to bear the cost of supervision of one I Dn grade S.I and two peons.

R & Sec E - 1917 (A).

.... The Company have further represented that for purposes of supervision and control a Sub-Insp of any grade would be sufficient and that there is no particular necessity to have a Sub-Insp of the I Dn grade for the purpose. See I (General) Rule (1) states that the licensee of the bonded warehouse shall pay the cost of the estt required to supervise the work either in whole or in part as may be ordered by the C. As it is left to the discretion of the C to charge the licensee for a part of the cost of supervision the Company requ

that they may be made to bear only a part of the cost...

The question of posting a Sub-Insps. a different grade and the necessity for two peons has already been examined by the C. There is no particular objection to posting a S.I of a different grade in this case but that will no doubt give rise to Complaints from the other manufacturing firms which are in every respect on a similar footing In making their representation, the petrs have conveniently forgot that the concessional rate of Rs 5/- per proof gln is so low when compared with the tariff rate of Rs 37-8-0 per proof gln, as to more than justify the recovery of the entire cost of Supervision from them The quantity of alcohol that would be used in both the toilet and the pharmaceutica departments every month would be very large as compared with the other manufacturing firms viz Messrs Spencer & Co., Murthy & Co and Mc Donell & Co., that inspite of the some of the disadvantages pointed out, the petrs stand much to gain even after paying the entire cost of supervision of one I.P.S. and two p... ... ... of the C. in his report on the Drugs Enquiry Committee recom the Company cannot have both ways, of a low Concessional rate of duty as given the g... ... to pay the staff required to

to ensure that there is no misuse of the privilege
The full cost of supervision was recovered in the
case of Messrs Spencer & Co., Murphy & Co, and Mc Dowell & Co
and there appears to be no reason to grant any
special concession to the petrs. for orders.

There are 3 such concerns in the
Mysore
9.2.33 ---- Rest -- at present ----

---- " ---- Murphy & Co. } Spi mchs.

Discussed with the Man Dir
V. Office is concession & we need to
send the necessary letter

23 2 32

Please see the resolution [illegible] they reiterate their request for the grant of some concession, by posting DC purchased Dt. Sub-Inspectors on a low grade S.I. or at least DC a period of two years & in the event of appointing a 1st grade S.I. to recover from the only a portion of the establishment charges. It has already been made [illegible] that the Concessional rate of Rs 5/- per 1000 gallons is very low as compared with the Local Rate and as such the Municipalities under the Scheme must pay in full the Staff required to ensure that there is no misuse of the privilege. The question of posting a S.I. of a different grade has been carefully examined in the [illegible] and it has been decided that in fairness to the Municipalities concern this Presidency, the existing practice of posting 1st grade S.Is in most cases should not now be departed from. No new points have now been urged by the petrs to require a re-consideration of the orders

In the penultimate para of their letter

the pchrs however state that they are willing to abide by any decision that may be passed by the C in this matter They request that Govt may be addressed in necessary sanction

Before addressing Govt, it seems better to inform the pchrs once again that the C is not prepared to show them any concession and to request them to state definitely whether they are willing to meet in full, the cost of estt of one Iˢᵗ grade S. I for two years In case they are willing, Govt may be addressed for sanction of the estt for a period of one year from 1-4-33 + R. Orders

C.M.
9.3.33

9.3.33. B 2.3.33 I think we may address Govt now & tell the Co: at the Mass. Dn's temporary address at Kumbakonam that I will not reconsider the decision which was communicated between M. D & person to employ as S.I. 1st Gde I mentioned then to them that the weakness of their place of manufacture afforded an adequate reason for employing a person 1st Gde S.I. as the difficulties of supervision from above were accentuated in their case than in the 1st Gde of the Dist. I & the H.C.) In the circumstances they contemplate no useful purpose would be served by the difference between the pay of a 1st Gde S.I (Rs 140 + 20 D.A) & Rs 200 a month would be a trivial extra to the cost of mfre he must

They are now in use in the branch making & marking standard proprietary articles like ~~Antiphlogistine~~ Antiphlogistine & Amo cream & the Trade names usually appearing ~~appear~~ appearing as synonymical names with Trade Marks in the British Pharmacopoeia & will no doubt do the same with Imitations & Perfumes

Note (Contd)

The list of toilet preparations as also that of medicinal preparations sent by the Co have been scrutinised. All the toilet preparations may be approved As regards the medicinal preparations the names of them has not been correctly given Their correct names are given below

No. & name as in the list.	Correct name
9. Extract Hamalidis liq.	Extract Hamamelidis liq.
36 Kantae Piperitae B.P.	Spiritus Kantae Piperitae B.P.
58 Tinctura Hyoscyami Co B.P.	Tinctura Hyoscyami B.P.
66 Tinctura Opii	Tinctura Opii
67 Tinctura Camphorae B.P.	Tinctura Camphorae Co B.P

The list medicinal preparations may be approved as corrected

Dto 15.3.33.

Ahi 15/3/33

Note Contd

Please see the Lahy. report above. It is stated that the names of some of the medl preprn. have not been correctly given in the list at pp 14-16 c.f. It will be observed

S/C

that the correct names as given by the Law do not differ materially from those given in the list. The list of medl preps as corrected and the list of toilet preps as approved

The Company have now agreed to pay the full cost of supervision of one first grade S.I and two peons They desire to be informed what other things they have to do besides getting the licences.

The A.C.D has already been asked to inspect the building so that any minor alterations that may be necessary may be carried out by the firm before 1-4-33, the date from which it is proposed to issue the licences. We can issue the licences soon after Govt sanction is received. Action under Rule 26 of the Distly and Warehouse rules regarding demand of security, and execution of hypothecation deed has to be taken only after the issue of licences. The petitioners may be informed that necessary action is being taken to grant them the licences from 1-4-33

It seems that the corrections made in the list of medl preps need not be communicated intimated to them at this stage. As in the case of Messrs McDowell & Co the approved list may be communicated to them at the time of issue of the licences.

P.T.O.

To enable the peons to start operations on 1-4-33, it is necessary that Govt sanction in the matter of estt required for supervision should be obtained sufficiently early. Govt may be informed of this and they may be requested to issue orders at a very early date. C.S. proposals have been despatched on the 6th instant may be sent for orders. Orders are not received by the 21st inst.

17.3.33.

16.3.33

17.3.33

Note contd

Govt have sanctioned the estt of one I Class Gazetted S.I and two peons for supervision of the Pharmacology and Bonded Warehouse. The licences may now be granted to the Karnataka Chemical & Pharmaceutical Works Ltd. Draft is put up for approval. Necessary licences are also put up for C.S. signature.

It may be noted that one of the firms to get the manufacture of aerated waters & other flavouring essences extracts, colourings, perfumed toilet preparations. Though the Company would at present manufacture only toilet preparations in the bonded warehouse it is likely that they may manufacture essences extracts etc in due course. In order that the licences need not be called for and amended frequently when such additions to the list are made, provision has been made in the licence of aerated waters and other

[10]

flavouring essences, extracts, colourings, perfumes and toilet preparations. The manufacture of all of which are governed by the same rules and conditions.

Please see the letter from the Asst. Com. P.C.I.C. of

21.3.33. He recommends the grant of the licence from 1.4.33

Licence granted to Karnataka Chemical and Pharmaceutical Works Ltd., Udipi, South Kanara, for the manufacture in bond of medicinal preparations containing spirit.

I, E.F.Thomas, Esq., C.I.E., I.C.S., Commissioner of Excise, under the Madras Abkari Act, 1886 hereby licence you, Karnataka Chemical and Pharmaceutical Works Ltd., Udipi, South Kanara, to manufacture in bond medicinal preparations containing spirit in the premises opposite Taluk Office on the Court Road in the town of Udipi, South Kanara and to remove finished preparations therefrom on payment of the prescribed rate of duty from 1st April 1933 till 31st March 1934 inclusive subject to the following conditions to be observed by you, the said Karnataka Chemical and Pharmaceutical Works, Ltd., Udipi, South Kanara.

C O N D I T I O N S.

1. The licensees shall be bound by the rules contained in Board's Notification No.5 dated 8th June 1923 published on pages 1289--1295 of the Fort Saint George Gazette, Part II, dated 26th June 1923, as amended by Commissioner's notification No.10 dated 14th May 1924 published in the Fort Saint George Gazette, part II dated 27th May 1924, No.10 dated 18th June 1925 published in the Fort Saint George Gazette, part II dated 23rd June 1925, No.15 dated 24th November 1930 published in the Fort Saint George Gazette, Part II dated 2nd December 1930 and No.9 dated 30-6-31 published in the Fort Saint George Gazette, part II dated 7th July 1931, regarding the supervision and control of the Pharmaceutical Laboratories licensed for the manufacture of medicinal preparations in bond.

2. The licensees shall observe and keep the rules applicable to Warehouses generally so far as they concern them, and also all such further rules as may under the authority of the Madras Abkari Act, 1886 or other law for the time being in force and relating to the Abkari Revenue be made by the Commissioner of Excise.

3. The licensees shall manufacture only such preparations as are previously approved by the Commissioner. A wastage of 10% on all spirit issued from the spirit store shall be allowed for loss during manufactur in the case of preparations manufactured from raw materials. No wastage allowance will be made in the case of preparations manufactured from concentrated tinctures.

4. The licensees shall maintain in the prescribed form true accounts of all operations and transactions in the Laboratory and shall furnish such statements when called upon to do so by the Collector, South Kanara, or the Excise officers not lower in rank than that of a Sub-Inspector.

5. The licensees shall give every facility to the Excise officers not lower in rank than that of a Sub Inspector to enter into and examine the premises and to inspect the accounts maintained in connection with the operations in the Laboratory whenever required

6. The licensees shall pay in advance on the 1st of each month to the Collector, South Kanara, the cost of the Abkari establishment deputed to supervise the operations in the Laboratory together with the leave and pensionary contributions.

7. An infraction of any of the conditions of this licence either by the licensees or by any person in their employment will render the licensees liable to the payment of a fine of Rs.10/- for each such offence or the cancellation of the licence as the Commissioner may direct. The levy of such fine or cancellation of the licence shall not preclude the licensees from being otherwise dealt with under the provisions of the Madras Abkari Act, 1886.

Office of the
Commissioner of Excise,
Chepauk, Madras
Dated 23.3 - 1933.

COMMISSIONER.
O/C 22.3.33.

Licence granted to Karnataka Chemical and Pharmaceutical Works Ltd., Udipi, South Kanara for the manufacture in bond of Culinary, aerated water and other flavouring essences, extracts and colourings, perfumes and toilet preparations containing spirit.

I, E.F. Thomas, Esq., C.I.E., I.C.S., Commissioner of Excise, under the Madras Abkari Act 1886 hereby licence you Karnataka Chemical and Pharmaceutical Works Ltd., Udipi, to manufacture in bond culinary, aerated water and other flavouring essences, extracts and colourings, perfumes and toilet preparations containing spirit in the premises opposite Taluk office on the Court Road in the town of Udipi, South Kanara and to remove preparations therefrom on payment of the prescribed rate of duty from 1st April 1933 till 31st March 1934 subject to the following conditions to be observed by you, the said Karnataka Chemical and Pharmaceutical Works Ltd., Udipi, South Kanara.

CONDITIONS.

1. The licensees shall be bound by the rules contained in Commissioner's Notification dated 2nd July 1932 published on pages 964-970 of Part II of the Fort Saint George Gazette dated 12th July 1932 regarding the supervision and control of bonded warehouses licensed for the manufacture of culinary, aerated water and other flavouring essences, extracts, colourings, perfumes and toilet preparations in bond.

2. The licensees shall observe and keep the rules applicable to Warehouses generally so far as they concern them, and also all such further rules as may under the authority of the Madras Abkari Act, 1886 or other law for the time being in force and relating to the Abkari Revenue be made by the Commissioner of Excise.

3. The licensees shall manufacture only such preparations previously approved by the Commissioner. No wastage allowance will be made.

4. The licensees shall maintain in the prescribed form true accounts of all operations and transactions in the Bonded Warehouse and shall furnish such statements when called upon to do so by the Collector, South Kanara or Excise officers not lower in rank than that of a Sub Inspector.

5. The licensees shall give every facility to the Excise Officers not lower in rank than that of a Sub Inspector to enter into and examine the premises and to inspect the accounts maintained in connection with the operations in the Bonded Warehouse whenever required.

6. The licensees shall pay in advance on the first of each month to the Collector, South Kanara, the cost of the Abkari establishment deputed to supervise the operations in the Bonded Warehouse together with the leave and pensionary contributions.

7. An infraction of any of the conditions of this licence either by the licensees or by any person in their employment will render the licensees liable to the payment of a fine of Rs.10/- for each such offence or the cancellation of the licence as the Commissioner may direct. The levy of such fine or cancellation of the licence shall not preclude the licensees from being otherwise dealt with under the provisions of the Madras Abkari Act, 1886.
